Addition and subtraction significant figures worksheet

Significant Figures

1. How many significant digits are in each of the following?

a. 0.00001
 b. 1.0000
 c. 6.023×10^4
 d. 0.000000
 e. 1.200×10^7

2. Perform the following operations. Write each answer with the correct number of significant figures. Do not use a calculator.

a. $4.567 + 8.7 =$
 b. $10.00 - 0.5 =$
 c. $15.000 + 0.1 =$
 d. $1.2 \times 10^3 + 0.00001 =$
 e. $1.50 + 0.52 =$
 f. $11.000 + 0.000 =$
 g. $100.0 + 0.0 =$
 h. $3.000 + 0.1 =$
 i. $1.000 \times 10^4 + 1.000 \times 10^3 =$
 j. $1.000 \times 10^4 + 1.000 \times 10^2 =$

ROUNDING TO 1 SIGNIFICANT FIGURE SHEET 2

Round these numbers to 1 significant figure

1.86 → 2
 21.71 → 20
 31.55 → 30
 4128 → 4000
 51.093 → 50
 62.72 → 60
 71.823 → 70
 81.843 → 80
 91.822 → 90
 101.5.63 → 100
 111.2.39 → 100
 121.8.48 → 100
 131.0.34 → 100
 141.0.67 → 100
 151.0.83 → 100
 161.0.038 → 100
 171.0.017 → 100
 181.0.065 → 100
 191.327 → 200
 201.8 → 200
 211.2617 → 200
 221.6274 → 200
 231.17.8 → 200
 241.2.76 → 200
 251.0.02 → 200
 261.7.008 → 200
 271.21.1 → 200
 281.1.83 → 200
 291.0.074 → 200
 301.7.083 → 200

Write 3 more numbers in each box.

| Round to 500 (to 1 sf) | Round to 50 (to 1 sf) | Round to 5 (to 1 sf) | Round to 0.5 (to 1 sf) |
|------------------------|-----------------------|----------------------|------------------------|
| 582 | 33 | 5.2 | 0.33 |

Even More Significant Figures!!!

1. $1.234 \times 10^4 + 5.67 \times 10^3 =$
 2. $1.234 \times 10^4 - 5.67 \times 10^3 =$
 3. $1.234 \times 10^4 \times 5.67 \times 10^3 =$
 4. $1.234 \times 10^4 \div 5.67 \times 10^3 =$
 5. $1.234 \times 10^4 + 5.67 \times 10^2 =$
 6. $1.234 \times 10^4 - 5.67 \times 10^2 =$
 7. $1.234 \times 10^4 \times 5.67 \times 10^2 =$
 8. $1.234 \times 10^4 \div 5.67 \times 10^2 =$
 9. $1.234 \times 10^4 + 5.67 \times 10^1 =$
 10. $1.234 \times 10^4 - 5.67 \times 10^1 =$
 11. $1.234 \times 10^4 \times 5.67 \times 10^1 =$
 12. $1.234 \times 10^4 \div 5.67 \times 10^1 =$
 13. $1.234 \times 10^4 + 5.67 \times 10^0 =$
 14. $1.234 \times 10^4 - 5.67 \times 10^0 =$
 15. $1.234 \times 10^4 \times 5.67 \times 10^0 =$
 16. $1.234 \times 10^4 \div 5.67 \times 10^0 =$

Composition of Functions Worksheet Name _____

I. Let $f(x) = 2x - 1$, $g(x) = 3x$, and $h(x) = x^2 + 1$. Compute the following:

1. $f(g(-3))$ 2. $f(h(7))$ 3. $g(h(24))$

4. $h(f(9))$ 5. $g(f(0))$ 6. $h(g(-4))$

7. $f(g(h(2)))$ 8. $h(g(f(5)))$ 9. $g(f(h(-6)))$

II. Let $f(x) = 9 - x$, $g(x) = x^2 + x$, and $h(x) = x - 2$. Compute the following:

10. $g(f(3))$ 11. $f(g(4))$ 12. $h(f(-6))$

13. $f(h(-3))$ 14. $h(g(11))$ 15. $g(h(-9))$

16. $g(h(f(5)))$ 17. $h(g(f(13)))$ 18. $f(g(h(-8)))$

Name: _____ Date: _____

Math Worksheet

1 a. _____ \times 602 = 60200 1 b. _____ \times 100 = 51700

2 a. 46 \times _____ = 46000 2 b. _____ \times 79 = 79000

3 a. 28 \times _____ = 280 3 b. 10 \times _____ = 220

4 a. 138 \times _____ = 13800 4 b. 568 \times _____ = 5680

5 a. 158 \times _____ = 158000 5 b. 1000 \times _____ = 180000

6 a. 100 \times _____ = 26300 6 b. 335 \times _____ = 33500

7 a. _____ \times 343 = 343000 7 b. 649 \times _____ = 649000

8 a. _____ \times 513 = 5130 8 b. _____ \times 95 = 95000

9 a. _____ \times 10 = 3040 9 b. 69 \times _____ = 690

10 a. 100 \times _____ = 17600 10 b. _____ \times 1000 = 451000

Addition and subtraction of significant figures worksheet answers. How to add and subtract with significant figures. Significant figures addition subtraction multiplication and division worksheets. Significant figures addition and subtraction worksheet. Significant figures addition and subtraction worksheet answer key.

If you are seeing this message, it means that we have problems loading external resources on our website. The work sheets of adding and subtraction problems mixed these addicted worksheets of a single day and subtraction are configured for 2 numbers in a vertical problem format. 1 or 2 days: 4 number for adding subtraction problems, these mixed problems will produce a problem of adding four numbers and subtracts in a horizontal format with one of the numbers that remain out. CCSS: 6.ee the entire work sheets contain a large collection of practical pages based on the concepts of addition, subtraction, multiplication and division. Summar and subtract the work sheets of decimal number problems. Mixed operations: Level 1 Know the students young people with sum, subtraction, multiplication and division of integers with this set of printable work sheets with integers of up to 20. Each working sheet in PDF has ten statements. You can select several types of characters to replace the missing number. Click here to get more additional leaves. The no regrouping option can be extinguished if you want to regroup. Read each declaration to represent the integers. MIXED REVIEW: True or false declarations on whole facts are given in these mixed checking sheets for grade work sheets 6 and grade 7. For a single day for adding, subtraction and multiplication mixtures mixtures From these mixed problems of a single day, they are configured for 2 numbers in a vertical number format. Three different sections are here for the practice. Exclusive pages to compare and order and represent integers in a numatic line there are a variety of activities and exercises. The missing missing They are randomly selected to challenge children to solve problems. Addition and substrating problems can be configured with 2 days (more/less) 1 days or 2 days (more/less) 2 days. The evaluation of integers in these entirely printable work sheets, grade 7 and grade 8 students replace the values of the unknown variables in the expressions given and evaluate them. Summar and subtract the worksheets of mixed missing problems of these mixed problems are configured for a vertical problem format. You can select up to 25 mixed problems per worksheet. You can select a different number of days for the problems of adding and substrating. The working sheets are a great resource for grade 6, grade 7 and grade 8. Enternis, worked. You can select different variables to customize these mixed problem sheets for your needs. You can select between 12, 16 and 20 problems that will be shown on each work sheet. Mixed operations: Level 2 Elevate your learning at the next level working on these problems in these exercises that include integers of up to 99. 1 or 5 minutes of addition, subtraction, multiplication and working sheets of mixed simulation problems. An additional exercise is a worksheet with all the problems of a single day for an operation in a página. The currency symbol can be selected from Dó, Libra, Euro and Yen. Summar and subtract without regrouping problems of problems with problems These mixed problem sheets are excellent for problems that do not require regrouping. Solve the equations of equal equal worksheets These worksheets of mixed problems are excellent to test students on the resolution of equalities in an equation. Click on the image that will be taken to that workplace of mixed problems. The number of days in each problem can be Between 2 and 4. individual or multiple days for adding, substrating and multiple leals of mixed problems These mixed problem sheets can be configured for horizontal problems of individual or multiple days with 2 numbers. The formats of the problems are horizontal and the number of 0 to 99. A set of working sheets with exercises such as solving single -step equations that involve whole, fractions and decimals are incorporated here. These PDF work sheets provide an abundant practice for sixth grade students, only grade and eighth grade. Presenting a mixed revision of the addition and the subtraction of the number of one days, 2 days, 3 days, 4 days and 5 days, each set of PDF is designed to adapt to the learning needs of learning of Primary children. Summar and subtract with Problemixed Problems these Mixed Problem Working sheets will produce 12 vertical problems with points to the right of each number to help children with adding or subtraction. Add, subtract, multiply and divide the positive and negative numbers to obtain a wide understanding of the integers. Opposite value vs absolute in the first two sections write the opposite value and the absolute value of the integers. SUPORTS AND RETURNING 4, 5 O 6 DIGITOS OF MIZADAS PROBLEMS WORKINGS The working sheets of these mixed problems can be configured to add and subtract problems of 4, 5 and 6 days in a vertical format. These mixed problems will produce 15 problems by work sheet. You can select between 12 and 24 problems that will be shown on each working sheet. The number of numbers used for each working sheet can vary individually to generate different sets of mixed operators problems. Division problems have five configurations Different days to select, and can select whether problems have remains or not. You can select up to 20 mixed problems per worksheet. You can select between 12 and 30 problems that will be displayed on each working sheet. Alternate substitute Subtract 2, 3 or 4 problems of problems of problems of days. Compare the opposite and absolute value of the integers in the third section. They contain problems of one of a single day, subtraction, multiplication and division in a página. These problems will occur in a vertical format for adding, subtraction and multiplication, and long division format. Write true or false in each declaration. Add, subtract, multiply and divide two fractions Mixed Problems Leaves These mixed problem leafy are excellent for working, subtracting, multiplying and dividing two fractions into the same working sheet. Take a special note of the signs while carrying out the arithm times. Add, subtract, multiply and divide two number work sheets of mixed problem leaf This mixed problem leaf can be configured to add, subtract, multiply and divide two numbers. You can select up to 30 mixed problems per worksheet. For substrating problems, you can select some regrouped, without regrouping, all regrouped or subtract at zero. Mixed problem sheets are created randomly and will never be repeated, so it has an endless supply of quality mixed problems to use in the classroom or at home. A student who has memorized all the problems of only one of a single day should be able to solve the 100 problems correctly in 5 minutes, 60 problems in 3 minutes or 20 problems in 1 minute. Missing number for adding, subtraction, multiplication and working sheets of mixed division problems These mixed problem work sheets are a good introduction for the concepts of Ejlgebra. If you are detrimental to a web filter, ensure that the domains *.kastatic.org and *.kasandbox.org is unlocked. Take some of these work sheets and start practicing! There is a Previous view for all mixed problem sheets. Negative number for adding, subtraction and multiplication of problems with problems of mixing problems these mixed problem sheets can be configured for horizontal problems of individual or multiple days. These mixed problem sheets are a great resource for children in kindergarten, 1st grade, second grade, third grade, 4th grade and fifth grade. The problems can be selected to include feet and inches, pounds and ounces, hours and minutes, and minutes and seconds. Click here to obtain a detailed description of all mixed problems. Complementary practical work sheets are submerged in the practice with our work sheets of adding and subtraction with piles of exercises to practice the two arithmal operations of summary and subtraction. The number of problems can vary on each working sheet from 12 to 30. The number of days can differ in multiplying and multiplier for multiplication problems. You can select between three different degrees of difficulty and randomize or keep operations for problems. These mixed problems will produce six problems for each type of operation for a total of 24 problems. Engage your resolution skills of equations by practicing single -step equations that involve sum, subtraction, multiplication and division. Explain some of them for free! Meeting of integers These entire work sheets are based on simple real -life scenarios. Our mixed problem sheets can download, useful to use and very flexible. A student who has memorized all these problems of a single day should be able to solve these working problems of mixed problems correctly in the allowed time. Summar and MONEY NO MEASURE PROBLEMS MIXING WORKINGS These worksheets of mixed problems can be configured for up to 4 days in each problem. You can select four different variations of the location for the unknown. These mixed mixed problem sheets Produce 12 problems by página. Summar and subtract the irregular units Mixed problems worksheets of these workspace of mixed problems are excellent for teaching children to add and subtract irregular medicine units. The number of numbers used for each working sheet can vary individually to generate different problems of problems. You can select up to 25 mixed problems per worksheet. You can control transport in adding problems, as well as regrouping and subtracts into zero in the problems of subtraction. The number can be selected to be positive, negative or mixed. You can select that operations want to use and vary the range of number also. The problem format is vertical and can select up to 30 mixed problems per worksheet. spreadsheet.
